CREATIVE SERVICES PROPOSAL

YOUR FUTURE TAKES FLIGHT

Fall 2026 Admissions Campaign | Air University Karachi Campus

Prepared for: Air University Karachi Campus | Prepared by: Independent Creative Services / Student Campaign Team

Proposal date: 14 October 2026 | Status: Illustrative pitch — subject to university review and approval

This is a speculative creative proposal, not an official Air University communication. “Admissions Open,” scholarship offers, degree listings and other promotional claims must be approved against current university information before publication.

01 Executive pitch

Air University Karachi Campus can turn prospective-student interest into a clear next step with a coherent, mobile-first admissions campaign. Our proposed service combines photo-led social posters, concise copy, and a short motion announcement, using consistent university colors and recognisable campus imagery.

The opportunity

Students and families often discover universities through social feeds. An effective admissions campaign must communicate identity, educational opportunity and how to apply within seconds, while remaining credible and readable on a phone.

Campaign promise

YOUR FUTURE TAKES FLIGHT — an optimistic campaign positioning the Karachi campus as a place to learn, build skills, innovate and prepare for professional life.

Objectives

• Build recognition of Air University Karachi Campus through consistent branded creative.

• Highlight learning, innovation, campus experience and admissions pathways.

• Drive qualified visitors to the university's verified application website.

• Provide a reusable set of assets for Instagram, Facebook, stories and campus screens.

Primary audience

Prospective undergraduate applicants in Karachi and surrounding areas; secondary audience: parents, guardians and career counsellors. Tone: credible, aspirational, inclusive, direct.

Creative rules

Photographic realism; accurate Karachi campus building reference; navy/white/gold palette; short headlines; legible typography; restrained transitions; no invented deadlines, unverified scholarships, fake QR codes or fabricated program claims.

02 Detailed content brief

Asset	Headline / key message	Visual treatment & action
Poster 1 — Announcement	Your Future Takes Flight	Recognisable campus exterior; main admissions message; verified apply URL.
Poster 2 — Technology & Learning	Technology Shapes a Brighter Tomorrow	Natural computer-lab collaboration; hands-on learning.
Poster 3 — Innovation	Innovation in Action	Believable student project / engineering workspace; real-world problem solving.
Poster 4 — Campus Experience	More Than a Degree	Students connecting outdoors; supportive learning community.
Poster 5 — Campaign Finale	Your Future Takes Flight	Strong campus identity, benefit summary and final call to action.
Motion video — 8 sec	Admissions Open — Fall 2026	Slow, natural camera push-in on supplied campus image; simple text reveal; optional English voice-over.

03 Poster mockups — creative direction

These are previously developed concept mockups. They illustrate visual direction, not approved institutional advertising. Text, logos, URLs, claims and QR graphics require final validation.

01 Admission announcement

Hero campus image; navy/gold headline; immediate call to action.

02 Technology & learning

Authentic study environment; learning and technology as practical skills.

03 Innovation in action

Hands-on project collaboration; innovation without futuristic gimmicks.

03 Poster mockups — continued

04 Student campus experience

Realistic social campus setting; connection and personal growth.

05 Admission campaign finale

Unified campaign ending with a memorable admission message.

04 Motion graphic & production approach

8-second motion deliverable

Time	Picture	Audio / text
0–2 sec	Real campus image; subtle natural zoom	Soft uplifting music; campus identity visible
2–5 sec	Building remains stable; gentle tree movement	“ADMISSIONS OPEN” clean fade/slide reveal
5–8 sec	Camera settles on façade	“FALL 2026” + verified apply URL; optional short voice-over

Production method: use the real supplied campus photograph as the base frame in Google Flow; animate only subtle camera/environment motion. Add typography in an editor when precise text is required. If the video generator cannot preserve signage or architecture, use a standard photo pan/zoom instead.

Technical delivery

One 1920×1080 MP4 master (16:9), one optional 1080×1920 crop (9:16) if selected, H.264 encoding; 5 poster masters in high-resolution PNG/JPG; editable source files where agreed; copy/caption sheet.

05 Proposed costing (PKR)

Indicative freelancer pricing for this proposal, not a university-approved budget or a market quotation. Third-party subscriptions, paid media and on-location shoots are excluded.

Work package	Quantity	Unit PKR	Total PKR
Campaign concept + content brief	1	8,000	8,000
Admission poster design	5	5,000	25,000
8-second motion video + basic audio	1	12,000	12,000
Captions, resizing & export QA	1	5,000	5,000
TOTAL PROPOSED FEE			50,000

Optional extras: 9:16 motion adaptation PKR 3,000; additional poster PKR 4,000; additional revision round PKR 2,000; voice artist recording quoted separately. Paid advertising spend is determined and paid by the university.

Commercial terms proposed: 50% on approval (PKR 25,000); 50% on delivery (PKR 25,000). Includes two consolidated revision rounds per asset. Any scope additions require written approval.

06 Production schedule & approvals

Suggested delivery: 15 working days after brief sign-off, receipt of brand assets and deposit. Dates below are relative to kickoff; they are not university admission dates.

When	Activity	Approval / output
Day 1	Kickoff, confirm brand rules, programs, URL, dates	Signed brief and approved claims
Days 2–4	Creative direction, visual research + posters 1–2	First design review
Days 5–7	Design posters 3–5 and refine campaign consistency	Five poster mockups for review
Days 8–9	Consolidated revisions, typography and accuracy checks	Approved poster designs
Days 10–12	Animate campus hero, voice-over, music and captions	Motion video preview
Days 13–14	Client review, revisions and format exports	Final client approval
Day 15	Final QA, delivery and handover	Master asset package

Client inputs required

• Approved AU logo/brand guide and permission to use institutional identity.

• High-resolution, licensed Karachi campus photographs and any approved lab/student photos.

• Confirmed Fall 2026 admission status, official program list, scholarship policy, application link and social handles.

• One decision-maker to consolidate feedback within one working day per review.

Measurement plan

Track reach, saves, shares, profile visits, link clicks and completed application enquiries using university-owned analytics. Suggested reporting: weekly creative performance summary; results depend on distribution and media budget.

Risk & quality controls

Do not publish generated QR graphics without testing; replace them with a genuine QR code. Avoid invented buildings, false faculty/facility claims, distorted campus signs and unauthorized use of student likenesses. Confirm that Fall 2026 is the intended intake and remains open at the time of posting.

07 Why choose our creative service?

One consistent visual system, five complementary messages and a short motion asset — designed for quick review, clear admissions communication and practical reuse across channels. We offer realistic campus-led creative rather than exaggerated AI visuals, with an approval checkpoint before any public release.

NEXT STEP: Approve the creative direction and estimated scope; provide official admissions details and brand assets; schedule kickoff.
